Date of birth: April 17, 2002

About Me

I am a front-end web developer and create optimized websites that allow users to access and interact with the site.

Also I'm a computer engineering student and I've been working and learning front-end web development for more than 2 years. I'm looking forward to learning some new things. My goal is to improve myself every day and do my best in all my projects.

Projects

❖ My Personal Website

I designed and developed this website to showcase my projects, skills and resume to my employers or clients.

Used Technologies:

- ✓ HTML
- ✓ CSS
- ✓ JavaScript

➤ [Open Project](#)

❖ Mamad Weather

Mamad Weather is a weather website that i design and developed as a practice project that gets weather data from a very popular API service. Mamad Weather is a very good and useful weather website that can even remember the city you have added to your city list.

Used Technologies:

- ✓ React.js
- ✓ Redux.js
- ✓ CSS
